

Dear Isomo Academy Team,

My name is Peshu Geoffrey, a student at Agahozo-Shalom Youth Village (Class of 2027, MPC). I am writing to apply for the Summer Internship in music performance, piano, and music production.

I am very interested in Isomo Academy because you use education and creativity to help young people grow. I also believe music can build confidence, bring people together, and create opportunities.

I am the President of the ASYV Live Band, where I lead rehearsals, organize performances, and play piano in competitions. I have also won music competitions at provincial and national levels. At the Betty Wright Studio, I work as a music producer. I help create songs and also teach younger students the basics of music production using FL Studio and Logic Pro X.

What makes me different is that I teach both how to play music and how to produce it. I like to help students understand music in a simple and practical way, so they can create their own sound and express themselves.

I speak Kinyarwanda, English, and Kiswahili. I enjoy teaching others and working with different people.

Thank you for your time. I would be happy to support Isomo Academy and share my skills this summer.

Sincerely,
Peshu Geoffrey
